About SLP

Strategic Litigation Partners, L.P. (SLP) specializes in customized, customer-centric solutions for the legal community. SLP understands challenges facing the legal arena and offers affordable seamless, innovative and comprehensive solutions using advanced technology and experienced teams of professionals.

Our professional staff has worked on many of the largest mass tort litigations in the country, consulting and advising national, local and general counsel representing some of the largest manufacturing and pharmaceutical companies in the world. Our experiences allows us the opportunity to provide our clients the assistance they need in developing a litigation strategy that has proven to save hundreds of thousands of dollars in litigation costs.

Our professionals have the expertise in managing the full spectrum of cases from individual matters to multi-jurisdictional, multi-party or class actions. From a single case to a large mass tort, Strategic Litigation Partners, LP has your solution--from a few nurses to hundreds, we can ramp up or down to meet your needs!

Litigation Hosting and Document Management

We offer K-Docs, a cutting-edge proprietary litigation management application capable of hosting and managing all aspects of litigation. Unparalleled in the software industry, K-Docs allows you to easily identify exposure and damages. Using proven damage models, K-Docs has the capacity to quickly sanitize millions of medical and billing records into a simple summary resulting in hundreds of thousands of dollars in savings. With a click of the mouse, you can create and collate exhibits from medical records instantly! Hyperlinking allows you to freely move between the work product and original medical record.

As a web browser-based review and retrieval solution, data is secure and fully accessible from any computer with Internet access. This allows multiple users at multiple sites to share information, 24/7. You'll save time searching for information or documents, save valuable office space needed for storing paper and streamline your operational work flows using an easy, secure and flexible platform. Call today to schedule a demonstration specific to your firm's needs.

Strategic Litigation Partners

Litigation Management
& Consulting Services

Our Services

Jose A. Torres

Owner/CEO/CIO

Jose has over 25 years experience in technology and legal fields. Prior to co-founding Strategic Litigation Partners, he served as President/CIO of a large national litigation support company. He also founded PC Solutions, a technology consulting firm, and co-founded Cad Technologies, an engineering service company. He provides solutions and technological integration for the legal industry including K-Docs, a cutting-edge litigation management software.

Donna Miller

Owner/President

Donna has extensive experience in executive management in all areas of nursing, including Vice President and COO of a national litigation support company. With more than 20 years experience, her clinical expertise includes adult critical medicine, ICU/CCU, home health, disease management, and project management. A legal nurse consultant for over 16 years, she has trained hundreds of legal nurse consultants. She is known for her management experience in all aspects of large volume litigation projects.

Record Retrieval

Since 1984, SLP has provided customized record retrieval to the legal and insurance industries. Each request is thoroughly researched before produced, eliminating costly orders that do not exist and ensure timely turnaround of your records. Most records are processed and delivered to your office in 21 days or less!

Records can be ordered online, by email or fax. We prepare the subpoena, notice, deposition questions and/or affidavit on each request saving you time and money. To complete the service, you have access to K-Docs, our sophisticated web-based records management system at no cost to you.

SLP RxD Report™

A comprehensive five year medical prescription snapshot designed to accelerate the discovery process by identifying conditions and diagnoses that the drug history may represent: includes drugs, pharmacy data, prescribing physicians, etc.

Nurse Review

Our highly trained legal nurse consultants offer a vast array of experience in the analysis of medical records in areas such as medical malpractice, personal injury, product/device liability and toxic torts. Each nurse is held to strict benchmarks and other quality metrics that are monitored and reported to the management and quality review teams.

Our workflow processes ensure your cases are completed consistently and accurately according to your deadlines.

SLP Synopsis™ is a cost-effective solution to gain a "birds-eye view" of a case and provides a quick overview of the pertinent aspects of a case, reducing costs and prioritizing which bell wether cases should go to trial first.

Deposition Questions/Summaries

Our staff provides detailed deposition questions to assist you in gleaning pertinent information during depositions. Summaries are written by a skilled team proficient in condensing depositions into a concise format, capturing substantive testimony.

Expert Witness Placement

SLP provides knowledgeable experts, handpicked to give you the winning advantage in the courtroom. From experience related to your current case to persuasive courtroom presentation skills, each prospective expert is carefully reviewed to match your exact specifications.

Court Reporter

Recognized for excellent service and history of accuracy, each court reporter is qualified as a Certified Shorthand Reporter (CRS). Each of our professional, seasoned court reporters has between 10 -15 years experience -- this equates to a higher accuracy record when it comes to the details of your case.

Medical Literature Research

By researching authoritative medical literature, we provide pertinent facts that substantiate and strengthen your case. If there is medical literature out there to support your case, we'll find it!

Document Management

K-Docs, created specifically for SLP and its clients, provides unique solutions to document management. As a repository and web browser-based retrieval solution, data is secure and fully accessible from any computer with Internet access. This allows multiple users at multiple sites to view, print, download, and email or share information, 24/7.

Other related services include:

- File Conversion (Scanning)
- Custom Programming
- Legacy Conversion
- Litigation Hosting with K-Docs
